

Steering Committee of the Life Cycle Initiative, 2017 elections

Results for the Governments constituency (3 seats)

Only three candidates stepped forward on this election; as they all came from three different geographical regions, the result is balanced as requested in the voting rules (*"To ensure geographical representation, members of each constituency have to be from different regions (Africa; Asia/Pacific; Europe; Latin America and Caribbean; North America; West Asia)."*) and thus the candidates were appointed without the need of voting. The representatives to the Steering Committee for this constituency are: **IBICT (Latin America and Caribbean)**; **European Commission (Europe)**; and **South Asia Co-operative Environment Programme (SACEP) (Asia/Pacific)**.

Results for the Business constituency (3 seats)

Plastics Europe gets first seat; second seat cannot be from the same region (**Europe**), and the next candidate with most votes from a different region is **FICCI (Asia/Pacific)**, given that PRé and ifu are European. The next seat cannot go to Europe nor Asia/Pacific, and thus goes to the next candidate with most votes: **The Center for Environmental Sustainability Studies (Latin America and Caribbean)**; 2.0 LCA Consultants (Europe) and Edge Environment (Asia/Pacific) cannot take a seat this time due to the geographical balance rule.
